

# HEXALIME HB

Liming auxiliary - Anti Wrinkling agent

## HEXALIME HB

- Gives flat pelts, with low swelling and improves the fullness of the bellies.
- Due to its low toxicity and its reducing chemical action, **HEXALIME HB**, can be used during liming in the famous “**ECO-WET**” process
- When used in normal liming process, the amount of sulphide can be reduced
- Accelerates the penetration of lime and sulphide and improves the breaking of sulphur linkages and the removal of hair-roots and allows excellent stretching of growth marks. This results in the reduction of wrinkles
- Can be used in painting for de-hairing sheep skins and goatskins to get flat pelts and very fine grain

## PROPERTIES

Appearance	:	Colorless clear liquid
Chemical Character	:	Organic compounds
pH (1:10)	:	9.5 - 11.5
Concentration	:	30 ± 2%

## APPLICATIONS

(% based on salted weight)

Cow calf	:	0.5 - 0.7 % <b>HEXALIME HB</b>
Buff calf	:	0.5 - 0.7 % <b>HEXALIME HB</b>
Cow hides	:	0.5 - 1.0 % <b>HEXALIME HB</b>
Buff hides	:	0.8 - 1.0 % <b>HEXALIME HB</b>
Goat skins	:	0.5 - 0.7 % <b>HEXALIME HB</b>
Pig skins	:	1.3 - 1.5 % <b>HEXALIME HB</b>

## STORAGE

This product has a shelf life of one year if it is stored in its original sealed packing at temperatures between 5°C and 40°C. Drums should be tightly resealed each time material is taken from them and their content should be used up as soon as possible after they have been opened.
