

HEXA OIL LN

Lecithin based fat liquor

HEXA OIL LN

- Gives an outstanding, even softness through the whole leather cross section.
- Use of even large quantities of **HEXA OIL LN** does not have a negative effect on the weight of the leather. Due to its intensive filling effect, **HEXA OIL LN** has a positive influence on the grain firmness.
- can well be used as a top fat liquor for suedes where sheen is of importance
- as a top fat liquor in full grain leather it is used where buttery and silky touch is needed.
- Can be diluted easily with 3 times on its weight of water at 50° c with constant stirring.

PROPERTIES

Appearance	: Viscous yellow brown liquid
Chemical Character	: Lecithin with synthetic oils
Active solids	: 50 ± 2 %
pH (1:10)	: 7.5 – 8.5
Solubility	: Very good
Stability	: Good in anionic conditions

(% on shaved weight)

Cow and Buff TC	: HEXA OIL LN	3.0 – 4.0 %
Upholstery	: HEXA OIL LN	4.0 – 5.0 %
Softy leather	: HEXA OIL LN	2.0 – 4.0 %
Suede leather	: HEXA OIL LN	2.0 – 4.0 %

STORAGE

This product has a shelf life of one year if it is stored in its original sealed packing at temperatures between 5°C and 40°C. Some slight sedimentation may appear if stored for prolonged time under warm conditions. But this does not affect either the solubility or the efficiency of the product. Mix well before use Product Drums should be tightly resealed each time material is taken from them and their content should be used up as soon as possible after they have been opened.

Note: **HEXA OIL LN** is supplied in the form of an emulsion and as such it is subject to small variation in color and consistency. However this has no influence on the technical properties of the leather.
