

# HEXAOIL HPS

Special polymer fat liquor

## HEXAOIL HPS

- **HEXAOIL HPS** is versatile product suitable for all kinds of leathers.
- **HEXAOIL HPS** can be combined with regular fat liquors to get the desired leathers
- **HEXAOIL HPS** can be emulsified very well at low temperature and also exhaust very well.
- **HEXAOIL HPS** will reduce the tension of leather fibers and relaxes the leather and will have wrinkle free appearance
- Best results can be obtained by combining with other HEXAOIL fat liquors. For example silky sheen can be obtained with HEXAOIL LP, waxy touch with HEXAOIL NWR and deep softness with HEXAOIL NK

## PROPERTIES

Aspect	:	Beige viscous pourable paste
Chemical Character	:	Synthetic and natural phosphated fatty polymer
Active solids	:	38 ± 2 %
pH (1:10)	:	6.5 – 7.5
Charge	:	Anionic
Stability	:	Stable to electrolytes at normal concentrations in tannery

## APPLICATIONS

### Example of applications

Shoe nappa	:	4.0– 6.0 % (based on shaved weight)
Cow upholstery leather	:	6.0– 8.0 % (based on shaved weight)
Garment leather	:	8.0– 10.0 % (based on shaved weight)
Buffalo upholstery	:	8.0– 10.0 % (based on shaved weight)
Chrome free	:	4.0– 6.0 % (based on shaved weight)
Lining	:	4.0– 6.0 % (based on shaved weight)

## STORAGE

This product has a shelf life of one year if it is stored in its original sealed packing at temperatures between 5°C and 40°C. Drums should be tightly resealed each time material is taken from them and their content should be used up as soon as possible after they have been opened.

The above information has been given in good faith, with out liability
