

HEXATAN APP

Powder Acrylic polymer for re-tanning

Suitable articles

Suitable for all kinds of leather

Highlights

A compact poly acrylic resin in powder form. Very much suitable for compact leather processing

The product is free from RSL chemicals (Restricted substances list) such as formaldehyde.

HEXATAN APP

- **HEXATAN APP** is a preferential filling syntan, especially suitable for getting tight, full, smooth upper leather.
- **HEXATAN APP** imparts in leather fullness, grain smoothness and improves the thickness.
- Due to its excellent light fastness **HEXATAN APP** is best suitable for white leathers and pastel shades.
- **HEXATAN APP** is compatible with vegetable tanning materials and synthetic tanning agents.
- **HEXATAN APP** is best suited for corrected grain uppers.
- **HEXATAN APP** when used in re-tanning of chrome tanned leather; it improves the fullness and tightness of grain without causing formation of a coarser grain or impairing the other properties of the leather, as is often the result of the other acrylic polymers with vegetable and synthetic tannins.

PROPERTIES

Aspect	:	Off white powder
Basis	:	Anionic acrylic polymer
pH (1:10)	:	4.0 – 5.5
Solubility	:	Good
Light fastness	:	Excellent
Stability	:	Stable at pH below 4.5 and stable to hard water

The above information has been given in good faith, with out liability

APPLICATIONS

Re-tanning: **HEXATAN APP** has to be applied before neutralization.

Softy upper leather : 2 - 4 % **HEXATAN APP**

Corrected grain uppers : 3 - 5 % **HEXATAN APP**

Garment / upholstery leather : 2 - 3 % **HEXATAN APP**

STORAGE

HEXATAN APP has a shelf life of one year if it is stored in its original sealed package. Drums should be tightly resealed each time material is taken from them and their content should be used up as soon as possible after they have been opened.
