

HEXATAN HMR

Anionic amino resin tanning agent

HEXATAN HMR

- **HEXATAN HMR** has got good filling action particularly in less closely structured parts of the skin, thus improves the fullness
- **HEXATAN HMR** will tighten the grain and improves the feel of the leather
- **HEXATAN HMR** imparts good dye leveling effect thus no problem in dyeing of pastel shades
- **HEXATAN HMR** Due to less astringency it will not disturb the grain, hence the resultant leather will be flat with fine grain.
- **HEXATAN HMR** imparts good surface for buffing and embossing

PROPERTIES

Aspect : Light brown coloured powder

Moisture content : 6.0% Max.

pH (1:10) : 8.5 – 9.5
