

# HEXATAN RS

HEXATAN RS is universal replacement syntan

## HEXATAN RS

- Improves the tightness, fullness and smoothness and gives high level of suppleness.
- Due to its good dispersing power, **HEXATAN RS** drives other syntans in the bath deeply into the cross section of the leather, which results in full uptake, and the exhaustion is clear.
- Best results can be obtained when used along with **HEXATAN HM**.
- Can be used for in vegetable tannage.
- When used in combination with vegetable extracts increases the rate of penetration with a clear colour and elastic grain.
- Suitable for all types of skins: light, heavy and reptile skins.

## APPLICATIONS

- **HEXATAN RS** can be used in all stages for the production any articles (e.g., uppers, garment, lining etc)

## PROPERTIES

Appearance	: Brown powder
Chemical Character	: Phenol and naphthalene condensation product
Moisture content	: 6.0 % Max.
pH (1:10)	: 3.0 – 4.0
Stability	: Stable to electrolytes at usual concentrations
Solubility	: Excellent
Light fastness	: Good

## APPLICATIONS

**HEXATAN WP** can be used as a re-tanning agent for the production of any articles (% based on shaved weight)

Upper Leathers	: 3.0 – 8.0 %
Aniline and pastel coloured Leathers	: 4.0 – 8.0 %
Garment leathers	: 2.0 – 4.0 %
Light leathers	: 2.0 - 6.0 %
Vegetable tannage	: As required
