

HEXATAN SO

Replacement syntan based on Sulphone and Naphthalene

Aspect	:	White powder
Basis	:	Based on Sulphone, Naphthalene condensate
Moisture content	:	6.0 % Max.
pH	:	In 10% aqueous solution, 3.0 – 4.0
Solubility	:	Excellent
Light fastness	:	Excellent

PROPERTIES

- **HEXATAN SO** improves the tightness, fullness and smoothness and gives high level of suppleness.
- **HEXATAN SO** has strong whitening effect and very much suitable for white leathers
- Due to its good dispersing power, **HEXATAN SO** drives other syntans in the bath deeply into the cross section of the leather, which results in full uptake, and the exhaustion is clear.
- **HEXATAN SO** is best used along with **HEXATAN RP-7**, which will give better results.
- **HEXATAN SO** can be used in vegetable tannage.
- **HEXATAN SO** in combination with vegetable extracts increases the rate of penetration with a clear colour and elastic grain.
- **HEXATAN SO** can be used in all types of skins: light, heavy and reptile skins.

APPLICATIONS

HEXATAN SO can be used in all stages for the production any articles (e.g., uppers, garment, lining etc)

Upper Leathers	:	4.0 – 8.0 %
Aniline and pastel coloured Leathers	:	4.0 – 8.0 %
Garment leathers	:	2.0 – 4.0 %
Light leathers	:	2.0 - 6.0 %
Vegetable tannage	:	As required

STORAGE

Under dry and cool storage conditions, the product does not show any problem and has a shelf life of two years. Some caking may appear if stored under warm, damp conditions but this does not affect either the solubility or the efficiency of the product.
