

HEXATAN WP

White and lightfast syntan for all types of leathers

HEXATAN WP

- **HEXATAN WP** is a synthetic re-tanning agent with very low residual monomers gives high level of light fastness along with good filling and soft leathers.
- **HEXATAN WP** compatible with all conventional re-tanning agents and fat liquors
- **HEXATAN WP** imparts roundness along with fine grain to the leathers.
- **HEXATAN WP** gives clear brilliant shades with high degree of levelness
- **HEXATAN WP** treated leathers will show high level of heat and light fastness
- **HEXATAN WP** will give brighter and better dyeing of vegetable-tanned and pretanned leathers
- **HEXATAN WP** imparts good buffability

PROPERTIES

Aspect	: Off white powder
Basis	: Condensate of Sulfone and Aromatic sulfonic acids
Moisture content	: 6.0 % max
pH (1:10)	: 3,5 – 4,5
Stability	: Stable to electrolytes at usual concentrations
Solubility	: Readily soluble in water
Light Fastness	: Very good

APPLICATIONS

In Chrome free tanning : 10.0 – 15.0 % **HEXATAN WP**, based on pelt weight

In Re-tanning for : 6.0 – 10.0 % **HEXATAN WP**, based on shaved weight

White leathers

In Re-tanning of : 6.0 – 8.0% **HEXATAN WP**, based on shaved weight

regular process

STORAGE

The product has a shelf life of at least two years if it is stored in its tightly sealed original packaging at temperatures between 0°C and 40°C. Bags should be tightly resealed each time material is taken from them, and their contents should be used up as soon as possible after they have been opened.
