

HEXATAN AI

Vegetable extracts of Acacia

HEXATAN AI

- Made out of vegetable extracts of Indian origin which can be used as an alternate for Quebracho extract
- has been specially formulated to get typical vegetable tannage with fine grain and fullness.
- is weak in astringency allowing quick through penetration, results very good filling in the shanks and belly part of the leather.
- can be used along with re-tanning syntans to get the characteristics of vegetable leather with supple re-tanning keeping a fine and tight grain.
- used to get tightness and fullness when applied during process of Veccatta type leathers.
- shows a very high filling power with improvements of breaks.

PROPERTIES

Appearance	: Reddish brown powder
Chemical Character	: Based on Acacia of Indian origin
Moisture content	: 6.0% Max.
pH (1:10)	: 4.0 – 5.0
Tannin Content	: 52 ± 2 %
Stability	: Stable to electrolytes at usual concentration in tannery
Light fastness	: Medium

APPLICATIONS

Veg. tanning of Sheep skin	: 10 – 15 %	HEXATAN AI (Based on pelt weight)
Dry milled Cow leather	: 2 – 5 %	HEXATAN AI (Based on shaved weight)
Vegetable re-tanning leather	: 4 – 6 %	HEXATAN AI (Based on shaved weight)
